

← Setting Up an Email Account on an Android Smartphone

For Mail Basic accounts

In this article, we will show you how to set up your Mail Basic account on your Android smartphone or tablet.

Please Note

The following steps were created using a device with Android 9. The designations of the individual menu items may vary slightly for devices from other manufacturers.

- 1 Tap the **SETTINGS** icon (typically displayed as a **gear**).
- 2 Go to **Accounts** and tap **ADD ACCOUNT**.
- 3 Select **PERSONAL (IMAP)**.
- 4 Enter your email address and tap **NEXT**.
- 5 Enter the password to your email address and tap **NEXT**.
- 6 In the **Server** field, enter the incoming server **imap.ionos.com** and tap **NEXT**.
- 7 In the **SMTP Server** field, enter **smtp.ionos.com** and tap **NEXT**.
- 8 Choose your desired **Account Options** and tap **NEXT**.
- 9 If you would like, you can change the default **Account Name** (which helps you differentiate this account from other email accounts on your device) or **Your name** (which is displayed on messages you send). Finally, tap **NEXT**.

Please Note

If you choose to perform a manual setup or would like to use a POP3 account instead, you can find the necessary settings below.

Incoming Email Server

SETTING	Server

FOR IMAP	imap.ionos.com
FOR POP	pop.ionos.com
SETTING	Security type
FOR IMAP	SSL
FOR POP	SSL
SETTING	Port
